“ I learned today of the passing of my cousin Bob--always and forever Bobby to me. It's heartening to learn of his wonderful family--children and grandchildren I never had the honor to meet. He was a kind child, and a lovely man who obviously enjoyed both incredible success in his chosen career, as well as in his marriage and family. There's no doubt he will be missed. My heart goes out to Jeanne, his children and grandchildren, and his brothers.

Sincerely,
Louise and John Dutney

“ Bob was a great engineer in his quiet and dignified way. He made many significant contributions to Yankee and the plants that we served.

“ Jeanne & Family,

I was very saddened when I learned of Bob's passing. My thoughts, prayers and deepest sympathy are with you at this difficult time.

I first met Bob at way back when at Lowell Tech when I pledged Pi Lambda Phi fraternity - Bob was my "big brother" and he provided much needed "guidance". Little did I know our careers would intertwine for the next 40 years or so - starting at Yankee Atomic and then through the different companies we worked for and projects we worked on.

I remember in particular the times we spent on the golf course in the Yankee Golf league and then in the annual matches with the plants - Rowe, Seabrook and others. We also had much fun playing in the UML alumni golf tournaments with a cadre of us alums that ended up working for Yankee Atomic or sister companies.

Good memories....

With my deepest condolences,

“ To Bob's family. Bob and I were KEITH Academy classmates, friends, and team mates in high school. People say it all the time but Bobby was a genuinely nice guy. He also had principles. We used to play the card game 45 a lot at the old Lowell Tech. And we won the flag football championship as a rag tag bunch of guys who beat the often bigger and stronger and conceited frat boys. We were close. I think we finished second in the state golf tournament in 1966. God bless you all. I just wanted to share a little with you. I'll miss you ole friend. Tom Gill, Reno NV
