

Mr. Danny D. Verissimo

June 25, 1985 - April 20, 2016

Danny D. Verissimo

We lost our beloved son, brother, uncle, and friend to so many on April 20th, 2016.

Danny left us far too soon, but his charm, charisma, bright smile, and peculiar sense of humor managed to leave a deep impression on all of our hearts.

Danny was born on June 25th, 1985, in Lowell and was a first generation descendant of Portuguese immigrant parents. He was a graduate of Greater Lowell Vocational School where he studied electronics.

He worked for Comcast for many years, but was most recently employed by Triwire Engineering Solutions as a technical support specialist.

His passion for his guitar and talent for music was one of Danny's most evident and cherished characteristics. Danny's songwriting and guitar playing skills led him to join Manifest, a local heavy metal band he recorded several albums with.

As a key member of Manifest, Danny had the opportunity and honor of sharing the stage with many of his inspirations such as Diecast, All That Remains, and Soulfly.

Danny is survived by his loving mother, Maria Verissimo, and father

Armandino Verissimo, both of Lowell; his sister Linda (Verissimo) Bolduc and her husband, Jason Bolduc, his niece, Alissandra Bolduc, and his nephew, Julian Bolduc, all of Dracut; his loving Godmother, Maria Joao Correia, of Lowell; as well as many aunts, uncles, cousins, and friends; all of whom he will be so deeply missed by.

He was predeceased by both his maternal and paternal grandparents, as well as his Godfather, Humberto Correia.

“ When Manifest was just coming up back in the Sugar Shack days, I was a young awkward kid who couldn't help but want to be around all that was happening. Danny without fail would go out of his way to make me feel like I was one of the boys. I'll tell you, not many things meant more to me at the time... Those were my formative years, I'm honored to say Danny was a part of them.

“ *My favorite, FAVORITE Danny V memory has got to be when we were recording our first album. We stayed at a studio out in the middle of the woods throughout the sessions. One night we all got together in the main studio room and jammed out for hours and hours. Danny was in awe of how nice the Marshall amp we were tracking with sounded and stayed on it for almost the whole night. By the time we all filtered out and went to bed, the morning light was juuuust beginning to show through the trees. That was, without a doubt, my favorite time spent with Danny.*
