“ Uncle John - Helped with a project while I was in College. Titled Tulco an expanding issue. I was taking a project analysis course and Uncle John helped me by answering questions that i graphed out and analyzed using the engineering business tools introduced in the course. I received and A on this paper. He was a brilliant, kind and warm hearted man that i was always proud to call my Uncle. I will miss him but am glad that he is no longer bound by the frailties of this life! Your niece Jill Doyle.
